## FREZOLI LIGHTING

Frezoli Lighting is a Dutch family business with over 30 years of knowledge and experience. In 1990 we started as TierlanTijn Lighting with small scale production of our own designed lighting. Over the years we have become a company with clients worldwide. We have stayed true to our roots by still designing our own collections and largely producing them ourselves.

The new collection is based on natural organic shapes inspired by the nature around us.

## PEBBLE WHITE

Pebble 8 pcs. art.no. L.335.9.200

## PEBBLE BLACK

Large round Ø 22 cm

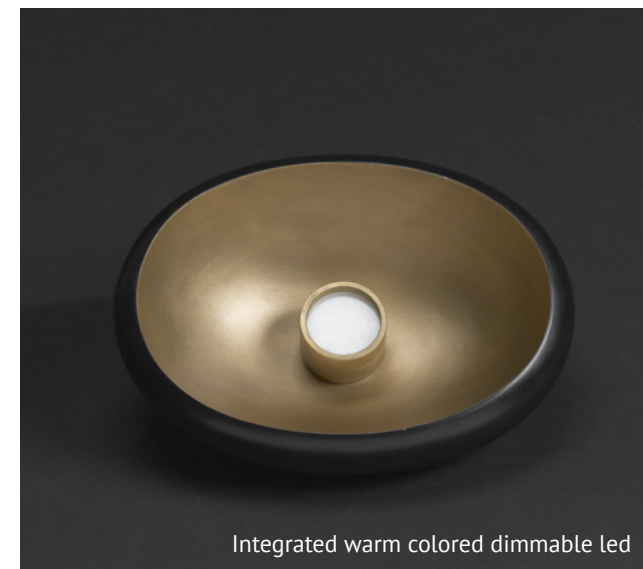

Pebble 8 pcs. art.no L.335.9.600

art.no. L.634

## COLLECTION OF CERAMIC JUG LAMPS

The pottery jars that we design for the jug lamps are handmade in a traditional way on a potter's wheel. The lamp bases are baked in an oven and then coated in our own workshop to give them their weathered and special look.

## LAMP SHADES

Not only our lighting but also the lamp shades are entirely made by hand in the Netherlands. These shades are finished with beautiful, specially selected fabrics. You can find examples of this with many of our dealers.
